

AVG Internet Security 9.0

Complete protection for everything you do

We know when you go online you want to be able to surf, search, download, bank, and shop safely.

With AVG Internet Security, our most advanced protection, you get a worry-free online experience every time. Internet Security's multiple layers of protection mean you don't have to worry about identity theft, spam or viruses. And it'll even prevent you from accidentally visiting harmful sites.

It's faster, smarter security that won't slow your computer down.

Safely bank and shop online without fear of identity theft thanks to AVG's new Identity Protection technology

Surf, and search with confidence, with LinkScanner® checking web pages at the only time that matters - right before you click that link

All this plus free online expert support around the clock and around the globe

Features

Additionally, Internet Security 9.0 pulls together elements of AVG's firewall, identity protection, and anti-virus signature detection capabilities to deliver the most accurate detection of new and unknown threats. This enhanced protection level makes use of cutting-edge technologies like application white-listing and "in-the-cloud" automated testing for tell-tale signs that indicate the presence of a new threat.

When you install AVG Internet Security, every one of these features is fully-functional - there's no need to do a thing.

Banking and shopping online
